

Data Sanitization & Forensic Verification Certificate

Report Number:	RPT-ERS-20260902-88FA
Report Classification:	ERASURE_CERTIFICATE
Generated Timestamp:	2026-09-20 07:51:34 UTC
Operation Code:	ERS-2026-9901
Target Device:	Safe Demo Storage B (Magnetic HDD Sandbox)
Storage Type:	HDD
Sanitization Method:	NIST_800_88_CLEAR
Verification Verdict:	PASSED
Residual Risk Level:	LOW

Executive & Technical Findings

VERIFICATION PASSED: 0 residual signatures detected across 100% of sampled storage blocks. Controlled forensic recovery probe yielded 0 successful extractions. Sector Shannon entropy is 0.0000. Meets NIST SP 800-88 compliance.

Cryptographic Chain of Custody Verification:

This document was digitally compiled by the DataShield Core Verification Engine (SIH26149). Underlying sector telemetry, SHA-256 evidence hashes, and authorization audit logs are immutably registered.
